Don't Take Risks, Exchange!

Switch now from WorkshopTab 1 to WorkshopTab 2

Take the right step into the future for your workshop and retire your WorkshopTab 1! Since support for the Windows 8.1 operating system and the important security updates have been discontinued, now is exactly the ideal time to switch to the new WorkshopTab with Windows 10 LTSC. **Plan the replacement now and avoid sudden device failures!**

Your exchange advantages at a glance:

/ **Maximum reliability:** With a modern, powerful and fail-safe device, you avoid unnecessary downtime and secure your revenue

/ **Future-proof:** The latest technology to support your workshop in the long term

/ **Robust and durable:** Developed for the demanding daily routine in the workshop – stable, resilient and reliable.

/ **Seamless software transfer:** Existing software and licenses can be easily transferred to the new device

/ **Bluetooth function test:** Exclusively possible with WorkshopTab 2 – required for DTCO 4.1 and newer (Bluetooth remote download, driver function, etc.)

/ **Customer satisfaction:** offer first-class service with quick diagnostics and calibration thanks to the latest technology

/ **Innovative functions:** benefit from advanced features for more efficient tests and calibrations
