

THE HANDY ALL-IN-ONE SOLUTION

DLK SMART DOWNLOAD KEY

The compact DLK Smart Download Key is a powerful solution from VDO for reading out, storing and archiving tachograph and driver card data on board quickly, securely and in compliance with the law.

VDO

Your advantages:

Convenient Plug & Play solution

Plug the DLK Smart Download Key into the digital tachograph via its 6-pin front interface, insert the driver card into the integrated card reader and you're done!

Simple and secure data transmission

The handy device automatically loads the mass memory and driver card data and stores it in compliance with the law.

Top storage volume

The 4-GB memory allows thousands of downloads without any problems.

User-friendly operation

The large 2.4-inch TFT touch display with status indicator is easy to read, can be rotated 180 degrees and allows intuitive and practical handling on board.

Never miss a download

A reminder function tells you when driver card and mass memory downloads are due.

Access at any time

You can read out all data anytime and anywhere – without having to rely on a fixed infrastructure. The DLK Smart Download Key fulfills all legal requirements for archiving, monitoring and auditing. So you're always on the safe side during road inspections.

Utilize fleet data immediately

In combination with the **VDO Fleet App**, the data can be transferred to VDO Fleet Tachograph Management via the Bluetooth® interface. The integrated chip card reader enables direct card data download. Alternatively, data can be transferred as usual via the USB interface on the PC.

Compatible

The DLK Smart Download Key is perfect for smart tachographs such as the DTCO® 4.1a or higher – but it's also compatible with all other digital tachographs.

Always at the cutting edge

The DLK Smart Download Key can be updated. The VDO information portal my.VDO.com allows you to keep your version up to date – free of charge.

Multilingual for all driver nations

The practical companion communicates in 29 languages.

The DLK Smart Download Key is the secure and practical companion for one-man enterprises, smaller fleets and workshops.
