VDO Fleet Services

Your platform for compliance and efficiency

With VDO Fleet's modular services, you not only store and archive tachograph data lawfully, but also get the most out of it for greater efficiency. VDO Fleet offers you an intelligent platform: easy to use, flexibly adaptable and expandable at any time.

The main functions of VDO Fleet

/ **Data storage:** tachograph and driver card data are downloaded in good time and stored or deleted in accordance with the law

/ **Archiving control:** overview of all mass storage and driver card downloads

/ **Personnel management:** digital reports with driving times, rest times, infringements, card and driver's license validities, automated driver letters

/ **Dispatch:** live data on vehicle position (Track & Trace) and driver availability almost in real time

/ **Vehicle management:** status, trip histories, mileage readings

/ **Infringement analysis:** automatic detection of infringements and analysis by driver and vehicle

/ **Deadline monitoring:** reminders for service appointments, calibration deadlines according to legal requirements card expiry, automated driver letter feedback

/ **Documentation:** PDF reports, DDD data, CSV exports for authorities and internal audits

VDO FLEET
TACHOGRAPH MANAGEMENT

With the VDO Fleet Tachograph Management service, the recording, archiving and evaluation of tachograph data is fully automated, reliable and legally compliant. This means that as a fleet manager, you can maintain an overview at all times – and your drivers can concentrate fully on the road.

Your advantages

/ **Always in compliance with the law:** full security in the downloading, storing and archiving of tachograph data
/ **Everything is automated:** no paperwork, no forgotten downloads
/ **Clear overview:** more than 25 automatic reports on driver activities, utilization, availability and infringements – including legal driving, working and rest times
/ **Never miss a deadline again:** reminders for tachograph inspection dates, expiry of driver cards and driver's licenses, service appointments and much more
/ **Simple communication:** send infringements reports and notices directly to drivers digitally and have them confirmed
/ **Suitable for fleets of any size**

In short, VDO Fleet Tachograph Management makes your work easier, saves you time and protects you from fines and the loss of licenses.

A clear overview

🔔 Reminders

Timely reminders of legal download deadlines, ensuring that regulations are reliably complied with.

✅ Ease of operation

User-friendly login for all functions. Automated downloads in conjunction with telematics save time and are secure thanks to cloud data management.

Available in 30 languages

Automated reports

Automated evaluations, e. g. weekly reports on driver activities/violations.

📄 Overview

Dashboard/scorecards report problems automatically, so you can avoid legal proceedings/penalties and train your drivers in a targeted manner.
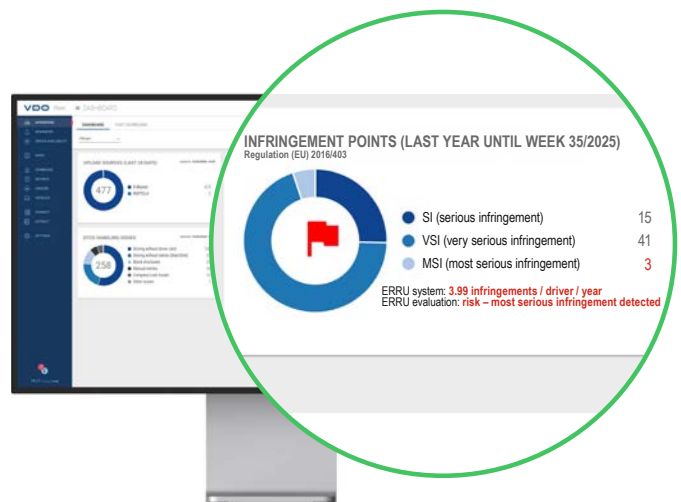

Efficiency

Optimize personnel planning with a clear evaluation of driver availability for the next few days.

VDO

VDO FLEET SCORECARDS – IDENTIFY RISKS IMMEDIATELY

This service automatically records, evaluates and clearly displays infringements committed by your drivers. This way you'll know immediately where action is needed – without the need for manual checks.

Your advantages

/ **Quick overview of risks:** violations are automatically classified according to their severity (serious, very serious, critical)
/ **Early warnings:** the system will notify you before critical limits are exceeded
/ **Targeted driver management:** conspicuous drivers are quickly identified and targeted training and coaching can then be provided
/ **Simple administration:** everything is displayed centrally, no complicated search through legal texts or lists of fines is necessary

INFRINGEMENT POINTS (LAST YEAR UNTIL WEEK 35/2025)
Regulation (EU) 2016/403

SI (serious infringement) — 15
VSI (very serious infringement) — 41
MSI (most serious infringement) — 3

ERRU system: **3.99 infringements / driver / year**
ERRU evaluation: **risk – most serious infringement detected**

VDO Fleet Scorecards – the ideal complementary service to the VDO Fleet Tachograph Management for all fleets that want to actively avoid risks and manage their drivers in a fair manner.

VDO CATALOG OF FINES – KEEP COST RISKS UNDER CONTROL

Infringements of driving and rest times can be very expensive, depending on the country. The VDO fine catalog service automatically shows you which fines you could face – quickly, clearly and without having to look them up.

Your advantages

/ **Quick overview:** immediately after downloading the data, you can see which infringements are involved and how much they could cost
/ **Different countries at a glance:** the system automatically takes into account the different rules of individual EU countries regarding fines
/ **Planning with a risk-oriented approach:** infringements are sorted by financial significance, ideal for targeted measures
/ **Legal certainty:** for driver training, sanctions and adjustments in the dispatch department
/ **The perfect complement to scorecards:** the qualitative evaluation of the infringements (severity) is linked to the specific costs

INFRINGEMENTS (LAST 28 DAYS) — Updated:

37

No Seriousness and Exceptions
Minor
Substantial
Severe
Critical

These infringements will cost you € 7,800

This way you always have full cost control – and you'll avoid unpleasant surprises.

VDO

VDO FLEET
TACHOGRAPH LIVE SERVICES – DATA FOR BETTER PLANNING

With the VDO Fleet Tachograph Live Services, you can immediately see where vehicles are located, how much longer drivers are allowed to drive and what rest times are due. This allows trips to be planned more realistically and empty runs to be avoided.

Your advantages

/ **Real-time overview:** driver status, vehicle positions and remaining driving times are immediately available
/ **Planning reliability:** trips can be planned realistically with no stress
/ **Track & Trace:** track vehicles live, optimize routes and proactively inform customers
/ **Geofencing:** automatic alerts about vehicles entering or leaving defined areas
/ **Reduce costs:** avoid unnecessary fuel consumption with an engine idling overview

VDO FLEET
REMOTE DOWNLOAD SERVICE – BACK UP DATA AUTOMATICALLY

Lighten your workload even more with a subscription to the VDO Fleet Remote Download Service. Downloading driver and vehicle data won't be a concern for you anymore.

You simply decide when the downloads should take place. From then on, all the data will be transmitted automatically and reliably.

VDO FLEET PARTNER SOLUTIONS – OPEN, FLEXIBLE, CONNECTED

Different vehicles, different systems and external providers are part of everyday life. Thanks to VDO Fleet Partner Solutions, this is no longer a problem! Intelligent interfaces connect VDO Fleet Services with your existing software – quickly, securely and with no costly changes.
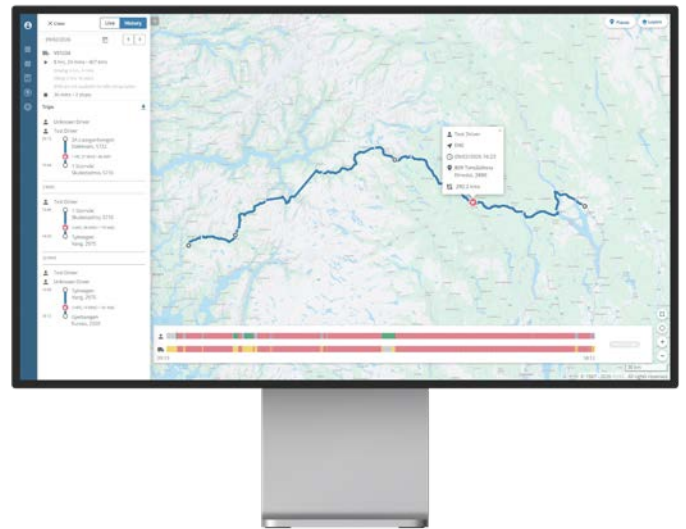

Practical solutions for optimal services

/ **Seamless integration:** tachograph data from third-party systems can be easily imported and processed
/ **Create added value:** use VDO Fleet Tachograph Management together with your existing telematics
/ **Open data solutions:** integrate driver and vehicle data directly into billing, payroll or your fleet management system
/ **Future-proof:** VDO Fleet Data Services capture tachograph data in real time and make it available for optimized processes

With our partner solutions, VDO Fleet Services adapt to your fleet – not the other way around.

VDO

VDO FLEET APP –
THE MOBILE CONTROL CENTER

With the VDO Fleet App, fleet managers and drivers can keep an eye on everything that matters at all times – directly on their smartphones.

The app brings key functions such as download reminders, driver availability, local archiving, Track & Trace and live data with vehicle positions directly to your smartphone – intuitively, securely and in real time. Many basic functions (especially for drivers) are free of charge – no login required.
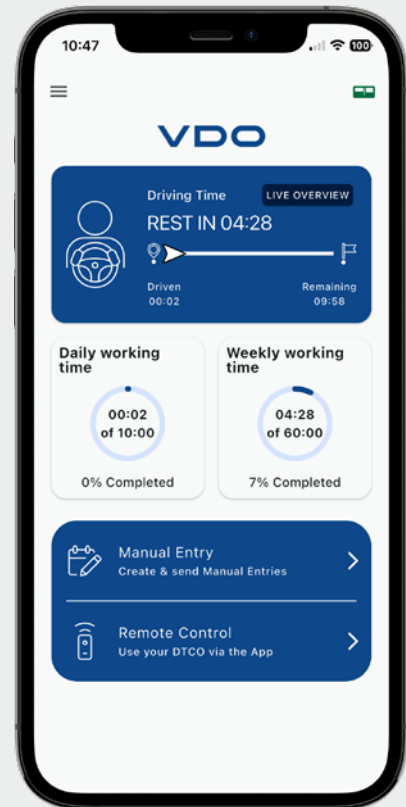

What the VDO Fleet App offers

For drivers (without login)
/ Remaining driving and rest times
/ Manual entries
/ DTCO® remote control (work activities)

For fleets (with login and VDO Fleet Services)
/ Track & Trace thanks to the integration of
  VDO Fleet Maps
/ DTCO® data download via Bluetooth®
  from DTCO® 4.1a
/ Upload of driver and vehicle data into
  the VDO Fleet Cloud
/ Reminders for data downloads
/ All functions of the driver version
